SECURITY STANDARD

We are deeply committed to ensuring the highest standards of security, both in the physical and cyber domains. Our facility is safeguarded with robust security measures, including controlled access, surveillance systems, and strict protocols to protect our assets and personnel. We employ advanced cybersecurity practices adhering to NIST guidelines to safeguard our data and your intellectual property.

OUR TEAM

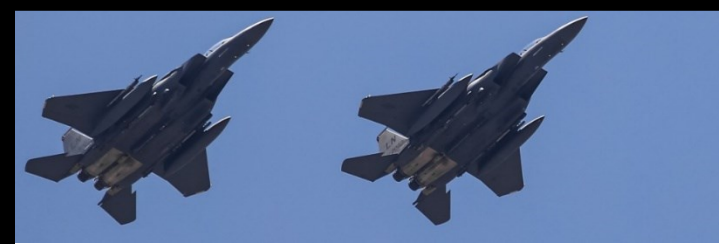

The Dynamic Team Behind Central Metal Fabricators: Certified Excellence, Creative Ingenuity, Collaborative Success. Our skilled professionals form the backbone of our operations. With a dedicated team size of 35 employees, we ensure personalized, agile, and focused service delivery in every project. At Central Metal Fabricators, we don't just value individual skill – we cultivate a culture where creativity thrives and teamwork is paramount. Our environment is built on constructive criticism and open collaboration, allowing us to harness diverse perspectives from all departments. This unique blend of certified expertise and innovative teamwork is what sets us apart.

- 3000 Watt Amada Lasmac Laser Cutting System
- 25-175 Ton CNC Press Brake, 2'- 10' Bed Length
- 3 Strippit CNC Turret Punches
- 12 Vertical Machining Centers Up to 60"X120" Travel
- Multi-Axis Live Tooling Lathes with Barfeeders
- 4th & 5th Axis CNC Capability
- ISO Calibrated Quality Control Equipment
- 10' Faro Arm
- 7 TIG Welding Stations
- 5 MIG Welding Stations
- Robotic Welding
- Spot Welding
- Data Plate Laser Marking
- Fully Equipped Deburr & Polishing Department
- sheet & plater rollers
- 20' X 50' PAINT DEPARTMENT
